KENTUCKY BOARD OF DENTISTRY

Legislative Committee Meeting

September 11, 2013

The following committee members were present: Dr. Jason Ford; Dr. Jamie Hargan; Dr. Adam Rich; Mary Ann Burch, RDH; KYDHA Reps ED Donna Ruley, RDH and Jennifer Osborne, KYDHA Legislative Rep; KDA Rep ED Mike Porter and KDA 2nd VP Dr. Dennis Price; UK Rep Dr. Deborah Ray; KY Dental Labs Association Reps Douglas Wagner and Wm Chris Schnell; KBD ED David Beyer and GC Brent Asseff. U of L Rep Dr. Tim Daugherty was unable to attend the meeting.

The committee reviewed a list of potential legislative or regulatory issues prepared by GC Asseff (copy attached).

The following actions were taken:

Item #1 - Motion to revise 201 KAR 8:550, Section 2, to state: "A Registered Dental Assistant may only deliver nitrous oxide at a rate specified by direct orders of a dentist." Motion by Dr. Rich; seconded by Dr. Hargan; unanimous vote.

Item #2 – Motion to revise the delegated duties list to conform the regulation and statutory cites to properly reflect the appropriate regulations and statutes as identified by KBD GC. Motion by Mrs. Ruley; seconded by Dr. Ford; unanimous vote.

Item #3 – Motion that the KBD take no action at this time to "open" the dental practice act to insert zones for Board representation; Motion by Mrs. Ruley; seconded by Dr. Ford; unanimous vote.

Item #4 – Motion to revise Sections 2 of 201 KAR 8:532 and 8:562 to remove reference to "a nationalized clinical examination." Motion by Dr. Rich; seconded by Dr. Ray; unanimous vote.

Item #5 – Motion to revise 201 KAR 8:532, Section 10 and 201 KAR 8:562, Section 6, to remove requirement to submit a notarized signature and photograph when renewing a dental or dental hygiene license. Motion by Dr. Ford; seconded by Dr. Hargan; unanimous vote.

Item #6 – Motion to revise 201 KAR 8:562, Section 15(4), to properly cite KRS 313.040(8)(a) rather than KRS 313.040(8)(c). Motion by Dr. Hargan; seconded by Dr. Ford; unanimous vote.

Item #7 – Review of this issue by GC Asseff determined that no inconsistency existed and, therefore, no action needed to be taken on this issue.

Item #8 – Motion to insert language in 201 KAR 8:571, Section 3(4) to indicate that the list of approved institutions in Kentucky does not preclude approval of courses from institutions outside of Kentucky. Motion by Dr. Ford; seconded by Dr. Hargan; unanimous vote.

Item #9 – After a lengthy discussion on the merits of requiring Kentucky dentists to only use dental labs registered with the KBD and requiring the registration of dental labs with the KBD, the Kentucky Dental Lab Association Reps were requested to provide a proposed draft regulation for review by the Legislative Committee at its next meeting.

In addition to the above, the Legislative Committee requested GC Asseff to provide a report at its next meeting on the legal requirement for the delegated duties list. Additional changes to the delegated duties list discussed at the meeting were tabled pending GC Asseff's report.

The next meeting will be held at the KBD Board Room on Wednesday, October 16, 2013 at 9:00 a.m.

Chairperson, Mary Ann Burch, RDH, called the meeting to order at 8:00 a.m., Saturday, October 27, 2012 at the Kentucky Board of Dentistry Office. The Education Committee members present were: Dr. Sid Brantley, Mary Ann Burch, RDH, Mara Beth Womack, RDH, and Dr. Tim Daugherty. A quorum of members was established and declared by the Chairperson. The first eight items discussed were from a previous meeting and discussion on October 13, 2012 submitted by Mara Beth Womack, RDH. The remainder of the items were discussed in order as listed with the committee's recommendations for each item.

1. Beverly Larget DMD

Discussion point: Request for Honduran trained dentist to work as a dental assistant and be granted permission to take radiographs and coronal polishing.

Recommended Action: Individual lacking certificates for radiation safety & coronal polishing - request denied--- Must take the courses

2. Bruce Wilson DMD

Discussion point: ASDA review course for clinicians using all modalities of dental sedation and general anesthesia

Recommended Action: Refer to KBD Anesthesia & Sedation Committee **Dr. Jason Ford with the Anesthesia and Sedation committee reviewed and approved the course (see note in green at the end of this report)**

3. Nicole Jenkins DMD

Discussion point: Request for KBD acceptance of an online medical emergencies course provided by Phillips Learning Center - @CEJ's

Recommended Action: Above stated course **does not meet** the 3 CEU requirement for medical emergencies as stated in KRS 313.040(7) (a). **It could be taken as part of the 30 hours required for license renewal, but does not fulfill the medical emergency requirement for General Supervision.**

4. Gregory Strull DMD

Discussion point: Dr Strull requests permission to take an ADA, CEPP, AGD approved renewal course for general anesthesia sedation.

Recommended Action: **No action - outdated course dated January 14, 2012**

5. Sara Loges DA

Discussion point: Request KBD approval for KY Radiation safety certificate. Ms. Loges is a successful graduate of the International Business College of Indianapolis, IN.

Recommended Action: **Approval** - Ms. Loges was granted an associate degree in dental assisting from a CODA accredited dental assisting program. She completed two semesters of didactic and clinical radiology.

6. Sara Boqueski RDH

Discussion point: Ms. Boqueski requests permission to take separate local anesthesia and nitrous oxide courses to fulfill the KY requirements for local anesthesia /nitrous oxide sedation.

Recommended Action: **Request denied. See attached email from David Beyer dated 10/25/12 explaining the legal reasons for denial.** According to 201 KAR 8:562 Section 11 the clinician must successfully complete both clinical and didactic components of LA & NO2 course at the same time to achieve initial certification. Two separate courses would not fulfill the 201 KAR 8:562 Section 11 requirement. *******David offered to write a letter to Sara Boqueski since she has continued to submit courses after receiving the letter from Jessica stating the sections of the law.**

7. Southern KY Oral Surgery Assoc

Discussion point: request approval for a 1 hr. medical emergency course.

Recommended action: **1 hr course is approved for part of the 30 hours CE required to renew licenses, but does not fulfill the requirement for the 3 hour live medical emergency course for General Supervision.**

8. Email without a name from a RDH who has practice in the dental profession for 28 years requesting Local Anesthesia

Recommended action: **Denied---** **Must take the complete 46 hour course**

Submitted by:

Mara Beth D. Womack RDH, MS, CDA

October 13, 2012

.....

Oct 27, 2012 Education Committee meeting

9. Ashley Staples- Dental assistant -Coronal Polishing and Radiation Safety course approval request

Recommended action: **Approved**

10. Dawn Deering- Dental assistant --Radiation Safety and Coronal Polishing course approvals

Recommended action: **approved for radiation safety and coronal polishing-----**

****** Please specify in the letter that Ultrasonic Scaling not allowed in KY by Dental Assistants**

11. Joselyn Cavins— Dental assistant -Radiation Safety Course approval request

Recommended action: **Approval upon receipt of certificate/affidavit showing successful completion of course**

12. Kirstie Hamilton- Dental assistant --Radiation Safety course approval request

Recommended action: **Approval upon receipt of certificate/affidavit showing successful completion of course**

13. Kathy Solosk- Dental assistant –Radiation Safety course approval request -has certificate from Ohio (2hrs) She has practiced for 24 years ---- KY requires 6 hr didactic course and 4 hrs technique

Recommended action: **Denied---** Must take the 6 hr didactic course and have 4 hours of technique

14. Emily Salyer RDH---Biolase Laser course approval request

Recommended action: **Denied----** Does not fulfill the requirements of 2.5 online pre-course and 12 hr live course with live patients according to the American Academy of Laser Dentistry.

15. Courtney Brown RDH—Biolase Laser course approval request

Recommended action: **Denied----** Does not fulfill the requirements of 2.5 online pre-course and 12 hr live course with live patients according to the American Academy of Laser Dentistry.

16. Wendel Family Dental Centre—IV Moderate Sedation Course approval request

Recommended action: ******This will be referred to Dr. Jason Ford and the Anesthesia and Sedation committee for review.**

17. Susan Tadsen—Dental assistant -Radiation Safety course approval request

Recommended action: **approved**

Protocol for future requests for approval of courses to fulfill the requirements for sedation: Any request for approval of sedation permits will be sent directly to Dr. Jason Ford or chair of the Anesthesia and Sedation Committee for approval following a standard protocol. This was agreed at the Oct 27, 2012 Board meeting.

The meeting was adjourned at 9:00 a.m. in order to attend the full Board meeting being held that morning.

Respectfully submitted for approval,

Timothy C. Daugherty, D.M.D.

**Report of the Law Enforcement Committee
Kentucky Board of Dentistry
November 23, 2013 Board Meeting**

The Law Enforcement Committee met on September 13 and October 18, 2013. The following is a summary of LEC activity during these meetings:

Total number of cases reviewed: 35

Case outcomes:

| | |
|--------------------------------------|----|
| Dismissed: | 27 |
| Settlement Agreement: | 3 |
| Private Admonishment: | 0 |
| Continued for further investigation: | 4 |
| License granted: | 1 |

Subjects of complaints by licensure type:

| | |
|--------------|----|
| Dentists: | 34 |
| Hygienists: | 1 |
| Dental labs: | 0 |

Subject matter of complaints:

| Participants: | 23 |
| Non-Compliance: | 2 |

2013 Kentucky Primary Care Association Annual Meeting on Oral Health

Oct 21, 2013

Oral Health Policy panel discussion by Dr. Julie McKee, State Dental Director, Dr. Ken Rich, Dental Director Ky Dept Medicaid Services, Dr. Laura Hancock-Jones UK College of Dentistry's Public Health Division and Chair of the KY Oral Health Coalition and moderator Dr. Raynor Mullins.

Dentist Workforce Capacity Report by Deloitte, May 2013 (attached) shows interesting information relating to the dental caregivers who are available to provide for our patients. Full time equivalent is a total of 32 patient contact hours per week. (1701-Full time equivalent dentists most of which practice in the triangle formed by Louisville- Lexington and Northern KY) The importance of access to care was discussed as well as the number of Medicaid providers which are the critical safety net for our poor and underserved. Dr. McKee did a great job when she updated the attendees on the Public Health Dental Hygienist's role with Health Departments providing preventive care to this population. Dr. Ken Rich asked several pertinent questions on payment policies for Medicaid providers and may have found an avenue by which patients can be seen by the medical provider, behavioral health and the dental providers on the same day without a penalty to the reimbursement fees.

Expanded dental outreach East and West was presented by Dr. Nikki Stones from North Fork Valley Community Health Center in Perry County and Dr. Laura Hancock Jones in Bowling Green. They have collaborated on their programs and each benefited from the others creativity. They have created a drink pyramid (attached).

Oral Health Quality presentation by Dr. Ken Rich and Dr. Krishna Aravamudhan from the ADA in Chicago covered new measures sets created by the DQA Collaborative. Much of this was not familiar to me at all.

Oral Health Literacy presentation by Liz Edghill BA,RN, BSA was a great exercise in best practices of communication with our patients. The focus was on what the patient learns and understands well enough to repeat back to the provider rather than how much dental health education is "covered" by the provider.

I would like to take this opportunity to share what I learned yesterday and respectfully ask the Board to approve my attendance. I was made aware of this opportunity on Sept 30th which was after the last full Board meeting so I was not able to ask approval in advance.

Respectfully submitted,

Mary Ann Burch RDH

Discussion Overview: Dentist Workforce in Kentucky

Kentucky Health Care Workforce Capacity Report (Deloitte, May 2013

1711 full-time equivalent dentists in Kentucky (general dentists and dental specialists). No analyses provided for age, gender or participation in Medicaid/KCHIP programs.

Comprehensive Dental Needs Analysis, Appalachian Rural Dental Education Partnership (ARDEP), UK Center for Oral Health Research, College of Dentistry, University of Kentucky, (July 16, 2012)

2063 practicing general dentists, 448 practicing dental specialists.

30 % of general dentists are women, 70 % are men.

20 % of dental specialists are women, 80 % are men.

59 % of general dentists practice in Central Kentucky.

64 % of dental specialists practice in Central Kentucky

1024 (49.5%) of the 2063 practicing general dentists were age 50 or older; 487(23.1%) were age 60 or older.

236 (52.6%) of the 448 practicing dental specialists were age 50 or older; 116(25.8%) were age 60 or older.

Numbers of Dental Specialists

Orthodontists (141), Oral Surgeons (110), Pediatric Dentists (86), Periodontists (48), Endodontists (39), Prosthodontists (14), Oral Pathologists (8) and Oral Radiologists (2).

Dentist Participation in Medicaid/KCHIP (2012)

(Based on Medicaid dental claims analyses, 2011 and 2012)

In 2012, 763 (37 %) of 2063 general dentists participated in the Medicaid program (had one or more paid patient claims in 2012). Based on level of participation, our best estimate is 20% of all general dentists (400) actively participated in the Medicaid program.

In 2012, 74 (86%) of 86 pediatric dentists participated in the Medicaid program, with the majority of these dental specialists actively participating.

In 2012, 60 (43%) of 141 practicing orthodontists participated in the Medicaid program. 40 orthodontists (28% of all orthodontists) were active participants with significant levels of paid claims.

In 2012, 53 (48%) of 110 practicing oral surgeons participated in the Medicaid program. 27 oral surgeons (25% of all oral surgeons) were active participants with significant levels of paid claims.

In 2012, the first full year of Medicaid managed care, 192 practicing general dentists and dental specialists who participated in the Medicaid/KCHIP programs in 2011, had no paid claims for 2012. This total included 169 general dentists, 6 pediatric dentists, 11 orthodontists and 6 oral surgeons. These dentists left Kentucky, retired from dental practice, were deceased or elected non-participation.

Selected Dental Outcomes, Medicaid Managed Care: 2011 and 2012 Comparisons.

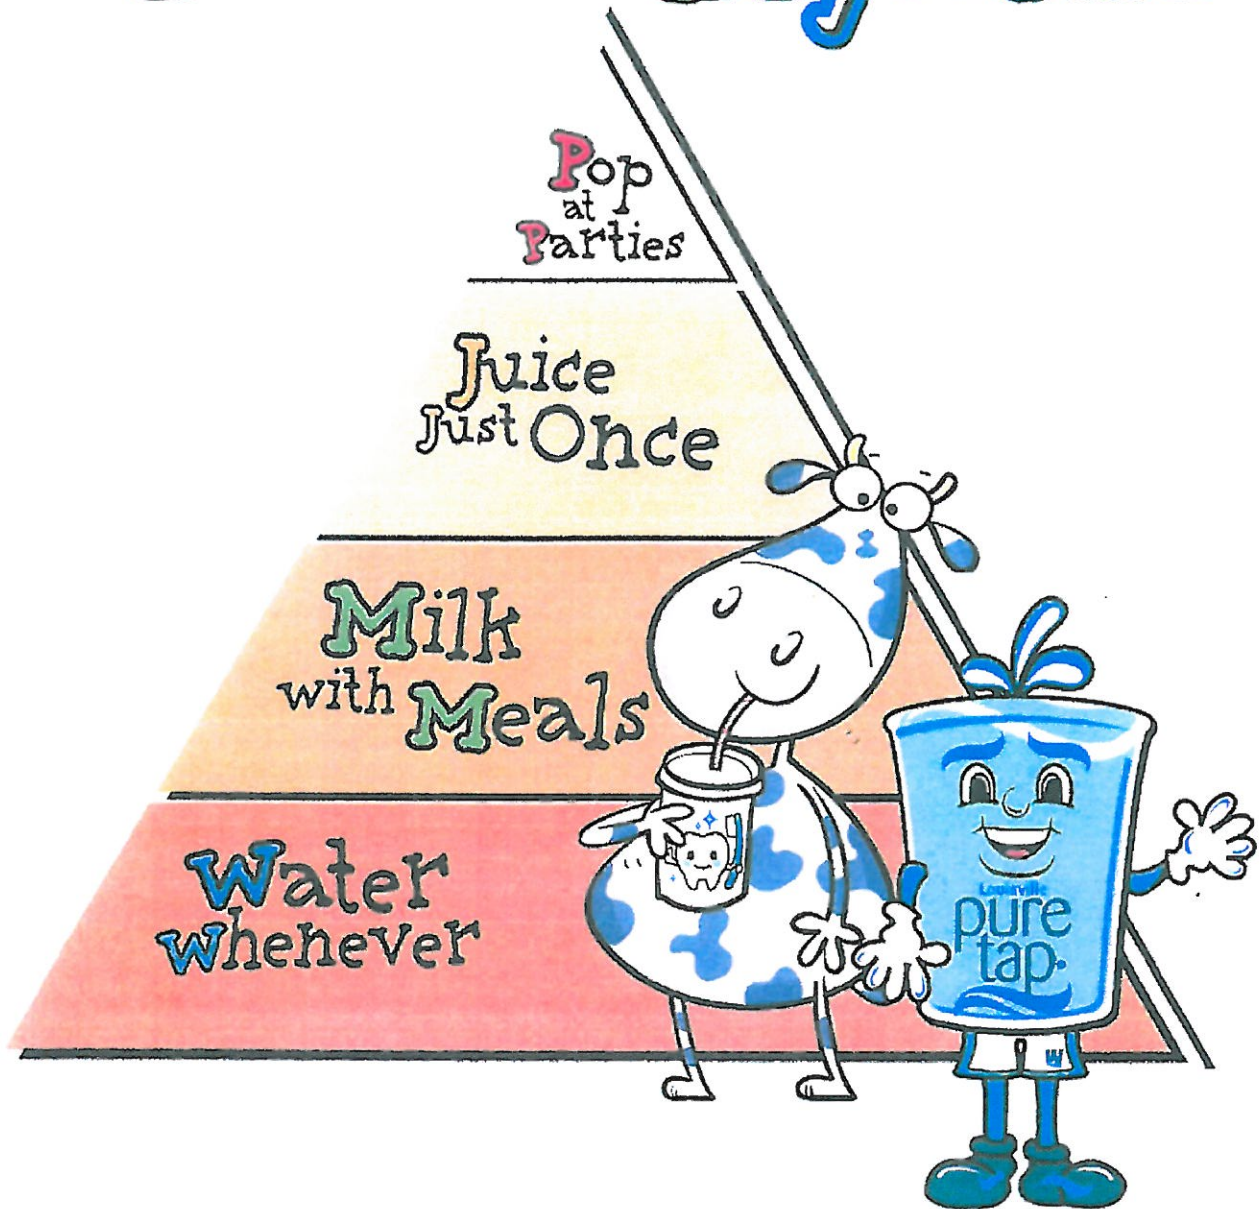

Total Medicaid enrollment for 2011 compared with 2012 increased slightly, 1,078,344 compared to 1,078,557 (plus 0.02%). For the age group 0-4 years of age, enrollment substantially increased in 2012, 113,942 to 147,882 (plus 29.79%). For all other age groups, slight decreases or increases occurred, except for the age group 21-30, which decreased (minus 9.32%).

During 2012, the numbers of Medicaid/KCHIP patients receiving dental services dropped significantly, with **34,813** fewer Kentuckians receiving services (compared with 2011), a decrease of 9.87%. For the age group 0-4 years of age, 8,345 fewer children received dental services (65,485 in 2011 compared to 57,140 in 2012, a decrease of minus 12.74%). Note from the 2012 enrollment statistics provided above, enrollment for this age group increased by 33,940 children.

For Children age 0-20, state dental utilization rates decreased from 46% in 2011 to 40% in 2012. Children's Medicaid/KCHIP dental utilization rates decreased in 115 of 120 counties. The state adult utilization rates (age 21 and older) decreased from 17% in 2011 to 16% in 2012.

In 2011, total dental services expenditures were \$ 124,391,191.16. In 2012, total dental services expenditures were \$ 86,433,771.27, a decrease of \$ 37,957,419.89 compared to 2011 (30.5%). Payments to practicing dentists decreased \$24,191,251.27 with decreases observed for all regions of Kentucky. The largest decrease in dentist payments occurred in the Appalachian region, minus \$12,105,070.
